

## **Mailbox and Driveway Policy Where it affects the Right of Way**

### **New Construction**

Builders should contact the WPOA Roads Committee Chairman Before installing driveways and mailboxes for proper placement instructions. Please email the Chairman at [wpoa@wimberley-tx.com](mailto:wpoa@wimberley-tx.com) Failure to contact the Chairman may result in extra building costs to the builder prior to closing.

### **Existing Homes**

Mailboxes should be placed where the U.S. Post Office recommends placement. If you wish to connect your driveway to an existing road please contact the Roads Committee Chairman at [wpoa@wimberley-tx.com](mailto:wpoa@wimberley-tx.com) The costs to extend driveway to existing roadway during our road building seasons (in the spring and early autumn) is the most cost effective for the homeowner.
